

# Nano Water Purifier

NANO -1A

Made in Taiwan

## Why do you choose *Green-Tak*?

Green-Tak introduces the new NANO X-PLUS water purification technology to design a compounded water filtration system in one cartridge.

Effectively filter the water to become a better taste, clean and fresh drinking water quality standard.

## Instant & Fresh Mineralized Drinking Water

High efficiency purification No more waiting

## Safe & Clean Drinking Water

Remove impurities, heavy metals, organic chemicals, bacteria, and other harmful contaminants in the water.

Nano X-Plus

# Multi-layers Nano water purification technology

Bacteria Free

Heavy metals & Lead

Chlorine Pesticides & Chemicals

Environmental Hormones

Bad odor & Smell

99%

Removal

High Quality Food Grade Material

SGS

Meet NSF Standard

International Quality Assurance

5

## Unique Features:

- Energy saving**  
Non-electricity needed
- Compact size**  
Easy fits to any space
- Easy installation**  
Easy maintenance
- Environment Friendly**  
Reduce carbon footprint
- Fresh & Pure Water**  
No more bottle water

## Specification

- Model No.: NANO -1A
- Flow Rate: 3L / Minute
- Maximum Pressure: 100psi
- Maximum Temperature: 100°F
- Filter Lifetime: 3000~6000 Liters
- Dimension: W125mm\* D200mm\* H330mm
- Designed & Manufactured in Taiwan

## Package contents

Quick Change Filter Cartridge*1	Quick Change Filter Head*1	Accessories package*1
Water tube*1	Tap Adapter*1	

## “Stay Green Stay Pure”

Green-Tak promotes the user friendly and environmentally friendly design on its drinking water purifier.

The design enables every consumer to have a good product of cost saving, power saving and time saving.

These advantages help to decrease the waste of bottled water and its transportation.

And put a little effort on decreasing the carbon footprint, reduce the impact of global warming.
