

Nano Water Purifier

NANO - 3A

Made in Taiwan

Why do you choose *Green-Tak*?

Green-Tak introduces the new NANO X-PLUS water purification technology to design a compounded water filtration system in one cartridge.

Effectively filter the water to become a better taste, clean and fresh drinking water quality standard.

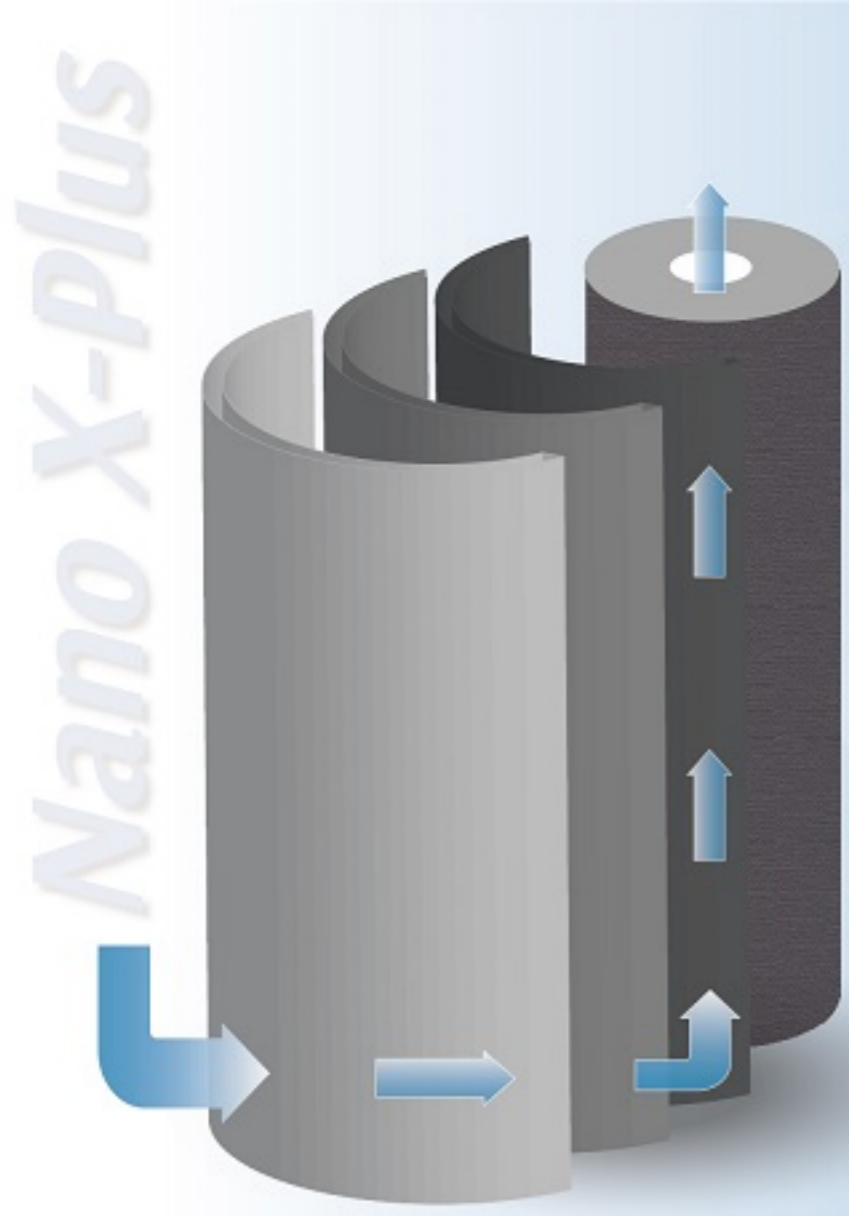

Instant & Fresh Mineralized Drinking Water

High efficiency purification No more waiting

Safe & Clean Drinking Water

Remove impurities, heavy metals, organic chemicals, bacteria, and other harmful contaminants in the water.

Multi-layers Nano water purification technology

- Bacteria Free
- Heavy metals & Lead
- Chlorine Pesticides & Chemicals
- Environmental Hormones
- Bad odor & Smell

High Quality Food Grade Material

SGS

Meet NSF Standard

International Quality Assurance

Unique Features:

- 1 **Energy saving**
Non-electricity needed
- 2 **Compact size**
Easy fits to any space
- 3 **Easy installation**
Easy maintenance
- 4 **Environment Friendly**
Reduce carbon footprint
- 5 **Fresh & Pure Water**
No more bottle water

Specification

- Model No.: NANO - 3A
- Flow Rate: 3L / Minute
- Maximum Pressure: 100psi
- Maximum Temperature: 100°F
- Filter Lifetime: 3000~6000 Liters
- Dimension: W330mm* D180mm* H380mm
- Designed & Manufactured in Taiwan
