

Intelligent Technology

**Real-time monitoring
&
Air quality display**

Smart = purifier + detector

4 colors Air Quality Indicator

- Blue: PM2.5 0~50 High Quality Air
- Yellow: PM2.5 50~100 Good Quality Air
- Orange: PM2.5 100~250 Moderate Haze Air
- Red: PM2.5 >250 Heavy Haze Air

Non-Consumable Filtes

no need to replace filters,
just need to clean the air flow output
to prevent the dust and dirt from blocking the flow out.

UVC + UVA 99.99% Sterilization.

Dual ultraviolet LED technology.
Mercury-free and Ozone-free.

Type-C input fast charging.

Type-c

Specification

- Model No.: GT-C6U
- Type-C Input Voltage: 5V, 1A
- Power Consumption ≤ 10 watt
- Negative Ion Concentration: 15×10^6 pcs/cm³
- Battery Capacity: 1800mAh
- Recommended Space: < 10 m³
- Noise: < 50 dB
- Application Car, Office Table, Small Space
- Machine Dimension 80x80x126 mm
- Machine Base Dimension: 80x80x77 mm
- Package Included: Air Purifier x 1pc,
Removable Base x 1pc, Type-C Cable x 1pc

Compliance with International certification

• Compliance with multiple certifications RoHS CE FCC

PM 2.5
99%
Removal

With the airflow, the released ions flow along the curves of the car quickly to every corner, to purify the whole car.

In-car air can be purified in **6 mins**;
Maximum purification: **10m³**
