

Gravity Water Filtration

-Widely Used for Rainwater, River Water Purification

High Flow Gravity Water Filtration System

NS-400

■ Specification

Model No	NS-400
Product Name	Stainless Steel Gravity Water Filtration System
Power Consumption	No Power Required
Application	Washing, cooking, daily use
Filter level	1 stage
1 st Stage Filter	Gravity Water Filtration Membrane
Membrane Size	315mm *133 pc
Flow Rate	6.0 L/M
Output Capacity	3.6T/Per Day (@10 hour)
Maximum Pressure	100 psi
Maximum Temperature	100 °F
Membrane Lifetime	3 year
Parts and Accessories	400 stainless steel water tank
Country of Origin (CO)	TAIWAN
